# MILL MORE FOR LESS

## SPECIAL OFFERS

1 JANUARY - 31 MARCH, 2025

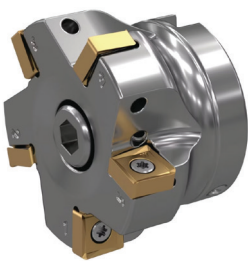

### OPTION ONE

Buy **10** inserts per  
pocket, get the cutter  
**FREE\***

### VSM490™

A 4-edged, double-sided roughing shoulder mill with embedded finishing capabilities. This shoulder mill, with 4 insert geometries to cover applications in steels, cast iron, stainless steels, titanium and aluminum, produces a best-in-class wall finish in axial step-down jobs.

### VSM890™

An 8-edged, double sided shoulder-face mill capable of performing a true 90-degree wall and step down with cutter bodies featuring internal coolant supply and an enhanced user-friendly design with a pocket numbering system. This tool is a roughing tool with embedded finishing capabilities providing best-in-class wall finishing in axial step-down jobs.

### VSM11™ & VSM17™

A 2-edged, 90° shoulder mill available in 11 mm and 17 mm delivering low horsepower consumption, versatility and soft cutting action in light, precise machining to medium roughing. Best for profiling, slotting, ramping up to 10 degrees, helical and circular interpolation and other milling applications.
